

Macintosh Support Engineers

Detroit-Area Macintosh support company seeks Macintosh Support personnel from bench technicians, to installers, to field services engineers. Successful candidates will be familiar with Apple products and solutions and their integration in varied environments.

Skills:

Familiarity with the latest Mac OS, and Mac/Apple hardware and software expected. Candidates should have a minimum of one current Apple 10.4 certification or equivalent real-world support experience. Candidates who state real-world equivalence will be required to demonstrate these skills.

Candidates should be self-motivated individuals with the ability to operate independently, organize, document, and think systematically. Applicant will be expected to provide prior work experience as supporting evidence of these skills. A reliable vehicle is mandatory. Special projects, longer hours, and travel will be required from time to time.

Compensation:

Competitive benefits package offered, including comprehensive health, 401K, dental, paid vacation, paid certification.

Applicants should respond by e-mail with résumé, letter describing relevant work experience, at least three references, and salary requirements. Incomplete responses will not be considered. Applicants who respond by phone, or respond without salary requirements will be disqualified.

If qualified, please send your resume including salary requirements to:
